CORE SKILLS

Data Science & ML

Predictive modelling · Statistical modelling · Machine Learning · Optimization · TensorFlow · R

Data Engineering & MLOps

Databricks · Feature Store · MLflow · Asset Bundles · Azure · Data pipelines · Data source migration

Generative AI

LLM Engineering · RAG · AI Agents · GenAI · Human-in-the-loop workflows

Communication

Data storytelling · Presentations · Stakeholder engagement · Mentoring

LANGUAGES

English

C1 Advanced — Cambridge (2021)

Spanish

Native

Pilar Pérez

Developer · Data & Analytics

Curious by nature. I enjoy solving challenging problems and explaining them clearly.

PROFESSIONAL PROFILE

Developer with 3.5+ years of cross-functional experience across data science, analytics and data engineering, built on a strong quantitative foundation in Physics, Mathematics and Statistics.

I combine technical depth with business impact, translating business needs into practical and efficient solutions. I work comfortably with GenAI tools while keeping human oversight and rigorous validation.

I am confident communicating ideas to diverse audiences, from technical stakeholders to business teams, and I enjoy presenting and sharing insights in a clear, engaging way.

WORK EXPERIENCE

Data Scientist

Mar 2023 — Present

Mercedes-Benz Group Services Madrid

- Develop and **productionize predictive ML models**, with end-to-end involvement in data preparation and pipeline support on Databricks and Azure.
- Led a data source migration** and contributed to strategic data modernization efforts to improve data quality, accessibility and scalability.
- Contribute to innovation initiatives on automation and productivity, **translating business needs into AI-enabled solutions**.
- Use AI-enabled tools (Genie, GitHub Copilot) to accelerate execution while maintaining critical thinking and rigorous validation.
- Recognised for impact beyond the day-to-day: two innovation awards, a conference talk and company event hosting (see page 2).

KEY PROJECTS

Sales Campaign Personalization

Data-driven system that recommends the most relevant vehicle models to customers based on predicted purchase timing and preferences.

Databricks · Feature Store · MLflow · Azure · TensorFlow

Aftersales Customer Engagement

Data-driven project that generates intelligent leads for aftersales campaigns, helping customers access timely maintenance and high-quality service.

Asset Bundles · Genie · GitHub Copilot · Azure

PROFESSIONAL CERTIFICATIONS

Data Storytelling Professional Certification

2026

CertiProf

- Communicating analytical insights and turning complex data into clear, actionable business narratives.

AI Engineer Core Track — LLM Engineering, RAG, QLoRA & Agents

2025

Udemy · 4-month hands-on programme

- Generative AI and LLMs in depth: RAG, QLoRA fine-tuning and intelligent agent architectures.

EDUCATION & LANGUAGE
CERTIFICATES

Master in Financial Strategy (60
ECTS credits)

Academia de Inversión · Endorsed by
UTAMED and Florida Global
University · Backed by CEL · Sep 2025
— Sep 2026

Data Science: R Basics

HarvardX · 2022

Cambridge English C1 Advanced

Cambridge International Education ·
2021

UNIVERSITY
COLLABORATIONS

UAX — Alfonso X el Sabio

Ongoing. Design and facilitation of
applied data challenges for students;
support for academic project
development.

UMA — University of Málaga

Since 2025. Hackathon mentoring,
challenge design and evaluation of
student projects.

Pilar Pérez

Developer · Data & Analytics

EDUCATION

MSc in Statistics for Data Science

2022 — 2023

Carlos III University of Madrid

- Graduated with **Distinction (GPA 9.03/10)**.
- Advanced training in statistical modelling, machine learning and large-scale data analysis, applying rigorous quantitative methods to real-world analytical problems.

Double Bachelor's Degree in Physics and
Mathematics

2017 — 2022

University of Granada

- Strong foundation in mathematical modelling, computational methods and complex systems analysis.
- **Honours thesis (9.7/10)** on the mathematical modelling of collective behaviour and its numerical simulation.

AWARDS & RECOGNITION

AMG Performance Award — Innovation
Marathon 2025

Dec 2025

Mercedes-Benz

- Designed and built **TaskMasterAI**, an AI agent that turns project management into a conversational experience (AI agents, LLMs, NLP, MVP development).

Best Pitch Award — Innovation Hackathon 2024

Nov 2024

Innovation Hackathon

- Presented **TalentHub**, a chatbot-based platform to improve talent management and hiring decisions.

SPEAKING AND COMMUNITY

Co-host — MBGSM Town Hall

May 2026

Mercedes-Benz Group Services Madrid

- Co-hosted the event celebrating the company's 20th anniversary and the 140th anniversary of the Mercedes-Benz patent.

Roundtable Speaker — International Day of
Women and Girls in Science

Feb 2026

Mercedes-Benz Group Services Madrid

- Shared experiences and perspectives on STEM careers with the tech community.

Mentor — Malackathon 2024

Oct 2024

University-companies hackathon · Málaga, Spain

- Supported student teams and contributed to the evaluation of projects.

Speaker — Big Data Community Days 2023

Oct 2023

Schorndorf, Germany

- Delivered a talk on **Feature Store and MLflow**, sharing best practices for scalable, production-ready machine learning.
